NCIAL REPORT

FRANCONIA
NEW HAMPSHIRE

This Town Report
is dedicated to
the members of
The Franconia Fire Department
and
The Franconia Life Squad

Annual Financial Report

of the

Town Officers

of

FRANCONIA, NH

for the Year Ending

December 31, 1980

The dedication of Cannon Mountain Aerial Tramway II on May 24, 1980 marked the end of a 42 year era, and the exciting beginning of a bright new future for Cannon Mountain. A short report on the development of the old Trams' modern replacement is found at the back of this report. Pictures on the front and back cover are by Don Eastman. Pictures inside this report are by Steve Hight of Littleton, one of the construction workers on this project.

AUDITOR'S REPORT

This is to certify that I have audited the accounts of the Tax Collector, Town Clerk, Treasurer, Selectmen, Water Commissioners, Library Trustees, Trustees of the Trust Funds, and the Frost Place for the year 1980. I have found all accounts, to the best of my knowledge and belief, correct and in proper order.

Town Maintenance - Summer	20,500.00
Town Maintenance - Winter	19,000.00
Street Lighting	17,000.00
General Expenses of Highway Department	22,000.00
Town Road Aid	571.22
Road Oil Purchases	7,500.00
Librarian's Salary and Books	3,500.00
Old Age Assistance	1,000.00
Town Poor	400.00
Parks and Playgrounds	7,650.00
Town Museum	1,000.00
Conservation Commission	250.00
Cemeteries	5,500.00
Advertising and Promotion	4,500.00
Regional Associations	1,600.00
Interest on Temporary Loans	5,000.00
Interest on Serial Notes and Bonds	3,055.00
Principal on Serial Notes and Bonds	22,500.00
Equipment Reserve Funds	30,272.75
Bridge Maintenance Reserve Fund	2,000.00
Land Use Reserve Fund	1,000.00
Sidewalk Construction	3,000.00
Total	$339,268.72

ARTICLE 3. To see if the Town will vote to raise and appropriate the sum of $350.00 for the Franconia Children's Center's Non-Profit Day Care Center. (By petition).

ARTICLE 4. To see if the Town will vote to establish an official and permanent Recreation Committee to develop, organize, implement, and maintain both summer and winter recreational programs and facilities for the enrichment and enjoyment of the residents of the Town of Franconia; and to authorize the Selectmen to make appointments thereto.

ARTICLE 5. To ask the Town to provide direction to the Selectmen in the final disposition of the remaining Bicentennial Commemorative Coins which were cast in 1972 and of which there are two gold coins and two hundred and fifty silver coins.

ARTICLE 6. To see if the Town will vote to authorize withdrawal from the Revenue Sharing Fund established under the provisions of the State and local Assistance Act of 1972 for use as set-offs against budget appropriations in the amount indicated; and further to authorize the Selectmen to make pro-rata reductions in the amounts if estimated entitlements are reduced or to take any other action thereon:

Appropriation	Estimated Amount
Town Building Improvements	$17,000.00
Reappraisal of Town Property	5,000.00

ARTICLE 7. To see if the Town will vote to petition the Representatives and Senators who represent the Town in the General Court to support in the current session of the General Court, the concurrent resolution to amend the State Constitution to limit the annual increase in spending by the state, or any city, town, or other governmental unit of the state to five percent (5%). (Included upon request.)

ARTICLE 8. To see if the Town will authorize the Selectmen to borrow money in anticipation of taxes.

ARTICLE 9. To hear the reports of agents, auditors, committees, or other officers heretofore chosen and to pass any vote relative thereto.

ARTICLE 10. To transact any other business that may legally come before the meeting.

John H. Lyman
Steven H. Heath
Robert P. Ball

Selectmen of Franconia

General view of the Base Station. The track cables and haul ropes are on reels in the foreground. A new passenger car and its A-frame are to the left of center. The second car is farther left near the trees. The brook was relocated to provide room for the new base terminal. A "cement run" is in progress.

A comparison of the old and new towers at 35. Tower designations are 26, 35 and 46 - indicating hundreds of feet out from the base terminal. The new towers are fabricated from galvanized covered steel to eliminate the most difficult painting requirement. None of the towers are as high as their counterparts, therefore the ride is considerably closer to the ground.

THE FROST PLACE

In 1980, nearly 1000 people visited the house, an increase of 20% over 1979. Arts events had also nearly 1000 in attendance, again an increase of almost 20%. These gains reflect a modest national reputation, now solidly won.

The second Festival of Poetry exceeded all expectations, both in size and artistic quality. Some 30 applicants were accepted from a field of 60, and the reputation of the faculty was national and even international in scope.

Financially, the Frost Place is now debt-free, with only a small sum remaining to be paid over several seasons. Operations in 1980 again showed a profit, and over $5000 was spent in area businesses by the Frost Place operations. Also, all visitors used local and town businesses as part of their visit.

Donald Sheehan, Director

FRANCONIA MUSEUM

History Committee Report

This is the first report on the activities of the town Museum History Committee. The objectives of the Committee are to collect data, photographs, papers and artifacts pertinent to the history of Franconia and environs.

We are pleased to report the following activities for the year. We have had monthly meetings, and at these meetings our members have brought out much background data relating to the history of the town. This past spring a good beginning in organizing information in the old Town Records was undertaken. During the summer we also secured interview material from some of our older citizens of their memories and handed down information of former events. At that same time photographs of some of the older buildings in the town were taken.

At present the committee along with some anonymous donors are sponsoring an Essay Contest for the Sixth Grade at the Lafayette Regional School. This contest will be on various subjects such as: hotels, foot-paths, artists, schools, industry, etc. Members of the Committee and the Abbie Greenleaf Library have offered to help the children with the research on the topics that they select. Brief talks on aspects of the Town history will be given at the school. It is our hope that the Essay Contest will give the children the opportunity to learn more about the history of the Town.

The Committee is concerned that the Brooks house be re-constructed as it is the only house of its type that has survived in the town; it is important that this rare house be available to viewing.

We hope that members of the community who have personal documents, artifacts, papers, farm tools, or machinery will contact us whether they would like to donate them at this time or at some future time. Thus we can make records of the materials that still exist and are pertinent to the history of the Town.

We welcome any person interested in participating in this overall program and encourage them to contact a member of the Committee. We look forward eagerly to a growing program.

Ruth Givens
Chairman

FRANCONIA FIRE DEPARTMENT

As another year ends, we, of the Franconia Fire Department would like to express our appreciation to you, the public, for your help. We had a very good year in the fire service and, with your help, 1981 can be even better.

1980 saw several new members join the department bringing our strength to 35 men and women. Approximately 1400 man hours were spent in training.

Also in 1980 the Fire Department held its first Annual Muster. This is a day of fun and games for firemen and their families. The public seems to have almost as much fun as the firemen. The Muster Parade gives the public a look at the different types of equipment that the service uses.

Another big plus this past year was the new emergency telephone number, 8123. After many hours of hard work by a small number of dedicated people, all emergency service calls (fire, life squad, police) go into a central dispatch center. From there the needed service is dispatched by radio, thus speeding the process of answering calls. We feel this gives our three town area the best coverage available.

Below you will see our activities for the past year.

Chimney Fires	10	Grass Fires	3
Mutual Aid Fires	9	Down Power Lines	3
Structure Fires	6	Dumpster Fire	1
Vehicle Fires	3	Mountain Rescue	1

As you can see, chimney fires were our biggest problem. Remember . . .

1. CLEAN YOUR CHIMNEY
2. WATCH FOR HOT COALS WHEN YOU OPEN THE STOVE
3. PUT ALL ASHES IN AN ALL METAL COVERED CONTAINER
4. SET ASH CONTAINER ON A NONCOMBUSTIBLE SURFACE.
5. Above all BE CAREFUL . . . your house can be replaced, you can't.

Respectfully,

The Franconia Fire Department

REPORT OF FOREST FIRE WARDEN AND STATE FOREST FIRE SERVICE

Forest Fire Prevention: Your Business, Our Business, Good Business. Forest fire prevention slogans have been seen in association with Smokey Bear since the late nineteen forties when a national effort to check the spread of forest fires was implemented.

New Hampshire residents recognized that forest fire prevention and suppression was the responsibility of every citizen, a half century before this national campaign, when our legislature established our first forest fire laws in 1903. Since that date, the State has appointed a town/city forest fire warden who is responsible for forest fire law enforcement in his municipality.

All fires kindled out of doors when there is no snow on the ground must be approved in writing by the forest fire warden before being kindled. All forest fires must be suppressed by the warden and his deputies as soon as they are reported. The cost of fire suppression is shared jointly by the town/city and the State of New Hampshire, as are forest fire prevention and forest fire training costs.

This state and local municipality cooperative forest fire program has given New Hampshire one of the best forest fire records in the United States.

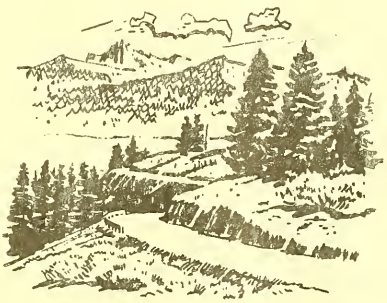
FOREST FIRE STATISTICS 1980

	No of Fires*	No of Acres**
State	1,226	693
District	20	21½
Town	0	0

* Includes Short Fire Reports
** Includes woods and grass

District Fire Chief — John Q. Ricard

Forest Fire Warden — George Whitcomb.



FRANCONIA LIFE SQUAD

The Franconia Life Squad responded to 54 calls during 1980. The following is a breakdown of the calls by general category.

Automobile accidents	18
Assist to sick persons	13
Heart conditions	5
Falls	6
Unconscious patients	5
Athletic injuries	2
Choking victims	1
Respiratory distress	1
Smoke inhalation (firemen)	2
Mountain rescue	1
Total	54

The Squad has now been trained in Anaphylaxis treatment and can handle severe reactions of the allergy type, including bee stings.

Our new telephone system "8123" should provide better access to those needing help.

Many thanks to all who volunteered hours of service during 1980.

William L. Mead, Chief
Franconia Life Squad

Premixed cement just arrived for a trip up the mountain. The front end loader lifted the cement carrier up under the Tram Car.

FRANCONIA POLICE DEPARTMENT

The year 1980 has been one of transition for the Franconia Police Department. The department, as an agency of the Town of Franconia, has been the subject of review by the Town Fathers and, with the support and assistance of you, the townspeople, it has emerged to continue its role in the community.

During any transition, it is essential that the level of service provided never be decreased. The Town of Franconia is fortunate to have had dedicated special officers to carry the department through this period of change.

While the process of change is strenuous for everyone involved, if the goal perceived is the betterment of the agency, then the effort is well spent. The transition of the Franconia Police Department will never be complete, as the department must adjust to meet the demands placed upon it and the wishes of the community it serves. A special thanks is owed now, however to those who have brought the police department to its present standing. Continued interest of the community is required to carry the department through its future phases of development.

THE RECREATION PROGRAM

The Recreation Program has grown to involve more youths in the various activities. The 1980 season saw great success in the different areas which include Ice Hockey, Little League and the Summer Program.

The Recreation Committee is continually working towards expanding and improving the programs offered to the children from the tri-town area. It is their goal to present a year round Recreation Program available to all community members. This requires a budget that allows for the proper maintenance of facilities, equipment and compensation to personnel.

Below is a brief synopsis of each program offered during 1980, along with the incurred expenses and a projected budget for 1981.

Approximately 30 children from Franconia, Sugar Hill and Easton participated in the 1980 Senior and Junior Hockey Association. The strong hockey program involves two teams and an instructional level. The coaches encourage improvement of individual skills and put it all together as successful team work. This creates self-confidence in each individual and comradeship which develops from team work.

1980 Expenditures:	
Maintenance, Heat, Lights and Labor	$3,414.59
Miscellaneous Supplies	543.98
Goalie Equipment (both teams)	739.46
Total	$4,698.03
1981 Expenditures are expected to be:	
Maintenance and Labor	$2,500.00
Gas	1,000.00
Lights	1,000.00
Telephone	150.00
Miscellaneous Supplies	500.00
Referee Expense	400.00
Coaches Expenses	400.00
Figure Skating	200.00
Total	$6,150.00

Approximately 55 children were involved in the Little League Program during 1980. There were two divisions with two teams in each division. The regular Little League team played eleven games each with Bethlehem, Lisbon and the other team. The Farm League played eight games under the same format.

1980 Expenditures:	
Equipment	$459.57
Maintenance	105.00
Total	$564.57
1981 Expenditures are expected to be:	
Uniforms	$375.00
Baseballs	75.00
Maintenance	60.00
PeeWee Expenses	200.00
Miscellaneous Expenses	190.00
Total	$900.00

The Summer Program in 1980 was extremely successful. More than one hundred children from Franconia, Sugar Hill and Easton participated in Red Cross swim lessons, biking, tennis lessons, art and hiking through the White Mountains. The Summer Recreation Program aims at developing individual skills and maintaining high physical condition throughout life. The program enhances self motivation towards 'entertainment' and also a respect for the natural environment surrounding everyone.

1980 Expenditures:
Salaries, van rental, gas, pool rental & art supplies $3,391.00

1981 Expenditures are expected to be:

Salaries	$2,800.00
Van Rental	500.00
Pool Rental	600.00
Miscellaneous Supplies	150.00
Total	$4,050.00

It is proposed that Sugar Hill appropriate $3,000.00, Easton appropriate $1,000.00 and Franconia appropriate $7,000.00 toward the Recreation Programs for the year 1981.

Workmen building the special hauling devise to transport the overweight saddles to the top.

FRANCONIA PLANNING BOARD

Your Planning Board wishes to report that in addition to our regular subdivision hearings we successfully completed the Master Plan for the Town of Franconia as required by state law. This plan was formally adopted in September, 1980. We are most grateful to the North Country Council for their help in the preparation of this document, and would like to give particular thanks to Mr. Fred Moody of the Council for the extensive time and very able assistance that he gave to the Board.

During the year the Board approved ten subdivisions involving a total of 428 acres and 21 lots.

In 1981 the Board plans to make a restudy of the Zoning Ordinance and Subdivision Regulations. Citizens are encouraged to submit suggestions and constructive comments relative to changes that would be beneficial to the Town.

CONSERVATION COMMISSION REPORT

for the year 1980

The Conservation Commission continued its annual program of plantings of trees and shrubs on Main Street between Raynor's Motel and the Sugar Hill Bridge. In addition, the Commission hopes to establish a scenic path along the river between the Easton and Sugar Hill bridges. Some work has already been accomplished on this, as has work to beautify the area in and around the directory sign. The Commission received a generous grant from the White Mountain Garden Club in August and this money will be used to continue further planting of trees and shrubs along Main Street. Additional sums have been promised by the Garden Club once the scenic walk along the river is complete.

Members of the Conservation Commission reviewed the latest proposals and the Final Environmental Impact Statement (FEIS) with respect to the extension of I93 through the notch. A detailed point by point critique of the FEIS was prepared with the able assistance of Mr. James Rich and forwarded to the interested authorities. In addition, Commission members attended the public meetings held in Lincoln in October, 1980, and voiced objections to new plans which appeared to be at variance with those originally agreed to at the Littleton Armory meeting in 1978. Much of the new concept was far more elaborate than we had been led to believe, and included such items as a center dividing strip, overpasses, etc. all of which would destroy the original idea of maintaining the wilderness quality of the notch. The Commission will continue to follow closely the plans for the notch.

Respectfully submitted,

H. Ashton Crosby, Chairman

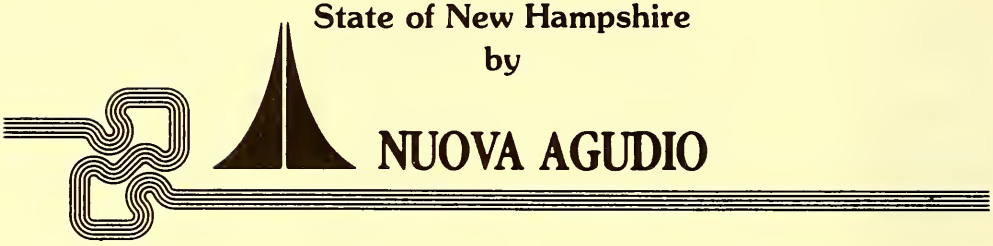
CANNON TRAMWAY II

Designed, Manufactured and Erected
for the
State of New Hampshire
by



Type	Bicable Aerial Tramway
Developed length	5,359 feet
Horizontal length	4,946 feet
Vertical rise	2,023 feet
Elevation at the valley station	1,981 feet
Elevation at the summit station	4,003 feet
Maximum clearance of cabin from the ground	108 feet
Rated speed (primary D.C. drive motor)	1,500 feet per minute
Rated speed (auxiliary motor unit)	400 feet per minute
Number of cabins	2
Capacity of each cabin	80 passengers plus operator
Weight of unloaded cabin	13,448 pounds
Weight of loaded cabin	27,170 pounds
Hourly capacity in each direction	770
Rated travel time	4 minutes 42 seconds
Main D.C. drive motor	456 horsepower
Auxiliary diesel/hydraulic power unit	330 horsepower
Track cable counterweight	303,600 pounds
Hauling loop counterweight	62,700 pounds
Track cable number	2 per car
Track cable type	double locked coil
Track cable diameter	2 inches
Lower haul rope diameter	1¼ inches
Upper counter rope diameter	1⅜ inches
Support towers	3
Height of Tower 1	93 feet
Height of Tower 2	65 feet
Height of Tower 3	71 feet

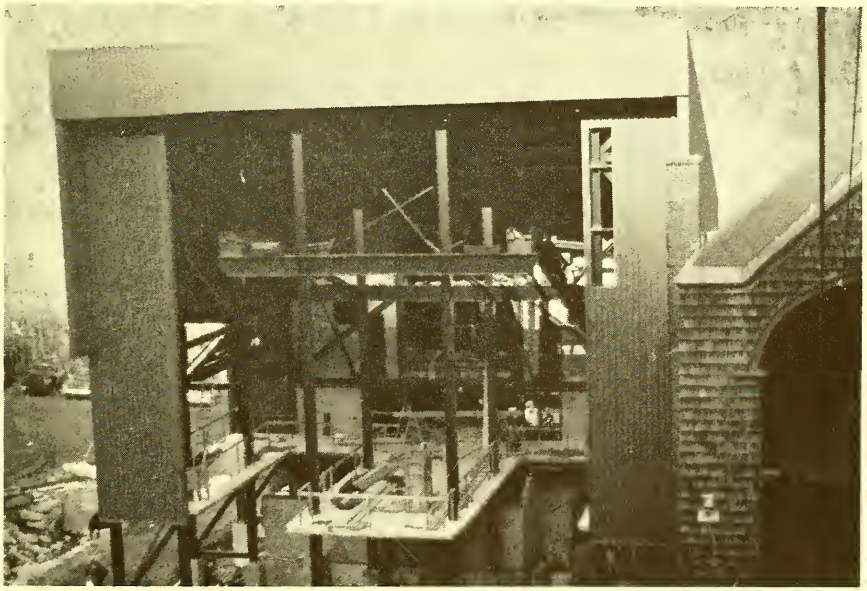
Tramway to Tramway II

by Don Eastman

Cannon Mountain in Franconia was the site selected for construction of the first Aerial Passenger Tramway on the North American continent. During the 42 year span it was in operation, a total of six and one half million passengers were safely carried in the two 27 passenger capacity tram cars.

Completed in June 1938, it was an immediate success with the summer visitors in Franconia Notch. Quick and easy access to the 4200 foot summit was the key feature. From a rather basic beginning of ski operations with two down-mountain trails, the Tram attracted ever increasing numbers of the ski fraternity. Eventually the mountain became one of the major ski areas in the East with its extensive trail development and added winter-only uphill lift facilities. The Tramway however, remained the stellar attraction, and over the years returned its original investment to the State many times over.

Every effort was made to keep it in prime operating condition, with a dedicated group of experienced full-time employees and a diligent maintenance program. A binding schedule was set up for cable replacement. The Westinghouse electrical equipment was thoroughly examined and tested at least once a year by a company engineer. Exposed steel frameworks were kept well covered with the best paints available for protection from the elements. Replacement parts on the operating mechanism had to be custom fabricated as metal fatigue took its toll, and this was becoming both difficult and expensive.



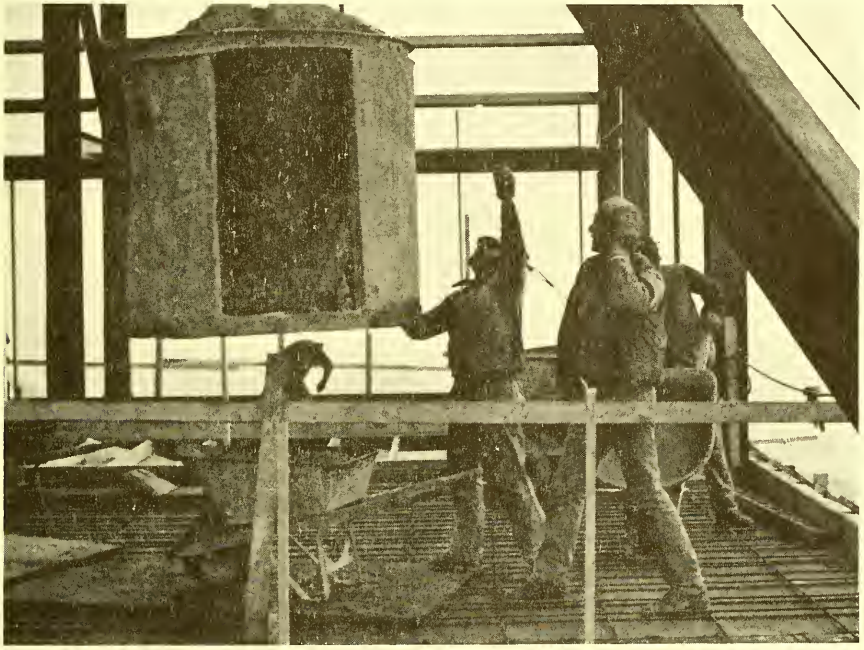
The new base terminal sets adjacent to the old one. Passengers gain access to the cars from the lobby via the old loading area.

The decision was made in 1975 to investigate the options available; either complete replacement of the entire operating unit, or extensive repairs to the original installation. Repairs would have required operations to stop while parts of the old assembly were removed and the entire mechanism rebuilt. The uphill capacity would have remained about the same and this proved to be the prime argument for replacement, which became the adopted approach. Authorization for a new tramway was made by the State Legislature in 1977.

Specifications were immediately made up and put out for bid. In July 1978, Nuova Agudio was awarded the contract to construct a completely new installation, running parallel to the first unit and connecting with the existing terminal buildings. Founded in Italy in 1861, Nuova Agudio is a world-wide organization specializing in passenger and material wire rope transport systems. Cannon Mountain however, was to be its first North American installation.

Headed by a small crew of Italians skilled in tramway construction, and aided by workmen from the surrounding area, the project was immediately started. Digging the footings for the base terminal and adequate holes for the 150 ton track cable counterweights were first priority. As materials arrived from Italy, the assembly began to take shape. Initially some components were ferried up-mountain via helicopter, but soon the old Tram was pressed into extra service for the shifting of supplies and equipment where needed. After a typical summer days operation for passenger traffic an immediate transformation took place. Center floor panels were removed from each Tram car to create an opening and a cable winch was set in place over this. A crew of regular Tramway employees aided by the contractor's work force began hauling the necessary parts to required areas. Loads were limited to 5000 pounds per trip, approximating the regular capacity of the cars with 27 passengers inside.

Three-quarter yard loads of premixed concrete were pulled to the summit station on an eight minute schedule. It was a long night though, before a 30 yard pour was completed. Most large components could be broken down into tram car sized loads, and the three new towers began to grow skyward, along with the new mountain terminal. The long saddle assemblies used to support both track cables at the summit were completely overweight, and a special system was devised to move them. Wheels from the old tramway emergency evacuation cars were made into a roller assembly. A complete saddle was connected to this with wire ropes and this unit was pulled over the track cable with a hoisting engine situated at the top of the mountain. Each trip required eight hours to complete.



A pour for a floor about to begin at the new mountain terminal.

The winter of 79/80 will long be remembered by the ski industry for its scarcity of natural snow. For this very reason it was a boon to the construction crews and completion of the project moved along rapidly. The cars were in place in February 1980 and operation tests began. It was decided to complete the winter season with the old unit, and regular summer operations would commence with the new one in May.

Dedication ceremonies were held on Saturday, May 24, 1980 in the new base terminal. Over 800 invited guests were on hand, and at the program's conclusion each had a chance to ride to the summit station and back as the symbolic "first car" kept running back and forth. The cars were operated at maximum capacity the next day as free rides were provided to one and all. The picture on the back cover was taken that afternoon, a truly beautiful day to enjoy the ride and view.

The operating panel at the new base terminal reflects the personification of of modern technology. Photo by Bob Perry.

The picture on the front cover was taken a couple of weeks later under less than perfect photographic conditions. A complete cloud cover settled over the area at an elevation of 3500 feet and the middle tower was visible only occasionally. A brisk wind was blowing and the temperature was lower than normal for June. Bill Norton, Manager of Franconia Notch, made the old Lafayette car available as a camera platform. We went up to the first tower to make pictures of the new cars as they were about to pass each other at the midpoint of their trip. The cars were stopped at the desired spot and we made adjustments to get into a favorable position to make our shots. As we were returning to the base station, we kept a distance uphill from the red car and about halfway between the tower and base terminal, this picture became available. The old cars were dropped the next day, and demolition of the "First Aerial Tramway in North America" was soon completed.

As the summer of 1980 progressed, the last of the original Tramway employees retired, and an era ended. Donald Johnston of Littleton was hired to work on the mountain by Roland Peabody when the Tramway first opened. During WW II he served his country in the Army and returned to Cannon after his discharge. Given full credit for service time, after 42 years he has earned a well deserved rest. Bill Norton, only the third person to serve as Manager in the Notch, also retired in 1980 after 20 years at the helm.

Tramway II represents a new generation, both human and mechanical. The big numbers for passengers carried should come easy, because 80's always add up faster than 27's. Speed is another factor in this favor - 1500 feet per minute against 1000, once things are rolling. The old Tram led the way and proved the conception successful. The new Tram II has a challenge before it to do as well!
